

Make your customers whole again faster.

Get the data you need on people, policies and vehicles to keep claims moving.

Today's consumers want fast, seamless and streamlined experiences, and they expect the same from their auto claims process. Carriers know they need to deliver superior customer service, but they're challenged with market pressures like high claims severity, inflation and labor shortages.

LexisNexis® Claims Datafill is a prefill solution specifically designed for claims organizations that delivers intelligence on people, policies and vehicles.

Claims Datafill can help carriers:

- **Drive best-in-class experiences** by enabling a faster, more accurate claims process
- **Develop missing information** on parties, policies and vehicles while showing risk indicators
- **Leverage data** to reduce manual processes and allow adjusters to focus on customers
- **Gain more insights** into claims through proactive alerts about available police reports and violation data
- **Improve subrogation** by delivering insurance information for at-fault third parties
- **Identify instances** of concurrent coverage

Claims Datafill:

Leverages public records and carrier-contributed data

Validates and updates existing information while also filling in gaps

Delivers data that informs the entire claims lifecycle

Enables unlimited ordering within the claim window

Supports triaging and right-touch claim handling

Accesses the most police reports in the U.S.

Is integrated into the workflow

Sends a proactive notification when police reports and violation data become available

LexisNexis Risk Solutions by the numbers:

- **98 out of the top 100** personal lines insurance companies are our customers.
- Our data sets draw from **10,000+** data sources.
- We connect disparate identity information with **99 percent precision for 285 million U.S. consumer entities.**
- We deliver insights from contributory databases with **96 percent of the personal lines auto market contributing policy data.**
- With our extensive access to police reports throughout the U.S., **we digitize crash report data for all 50 states.**

The Claims Datafill services are not provided by "consumer reporting agencies," as that term is defined in the Fair Credit Reporting Act (15 U.S.C. § 1681, et seq.) ("FCRA") and do not constitute "consumer reports," as that term is defined in the FCRA. Accordingly, the Claims Datafill services may not be used in whole or in part as a factor in determining eligibility for credit, insurance, employment or for any other eligibility purpose that would qualify it as a consumer report under the FCRA. Due to the nature of the origin of public record information, the public records and commercially available data sources used in reports may contain errors. Source data is sometimes reported or entered inaccurately, processed poorly or incorrectly, and is generally not free from defect. This product or service aggregates and reports data, as provided by the public records and commercially available data sources, and is not the source of the data, nor is it a comprehensive compilation of the data. Before relying on any data, it should be independently verified. LexisNexis and the Knowledge Burst logo are registered trademarks of RELX Inc.
