

Instantly verify information  
and rapidly follow-up on leads  
without leaving the field.

Today's agencies face an uphill battle. In this new dynamic investigative environment or digital age, government users shouldn't have to wait to return to the office to follow-up on leads or run a name through an investigative system. They need to be able to generate information and leads quickly – in the field – as new information is presented to them.

In the past, this issue was addressed by assigning resources to remain at the office to serve as the liaison between front-line investigators or caseworkers and the critical data they required for investigations. Budget cuts, staffing shortages and requirements for real-time information make this approach unfeasible – when personnel are deployed to the field, their critical investigative tools must go with them.

## Bringing Actionable Information to the Action

Government professionals need a user-friendly application that makes extensive data available anytime, anywhere, to help them conduct key interviews and investigations faster than ever. Additionally, the ability to verify identities on scene during a remote investigation is paramount. How much more efficient would the investigative process be if agencies had comprehensive and authoritative information on the go, including:

-  Names
-  Addresses
-  Phone numbers
-  Assets, including real property records, motor vehicles, watercraft and aircraft
-  Associates
-  Death records
-  Business information

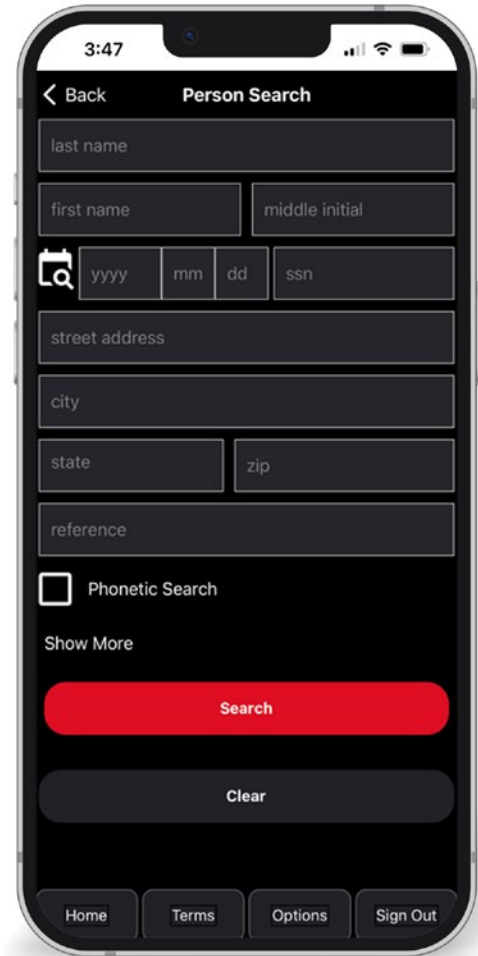

With LexisNexis® Accurint® Mobile, government professionals can stay connected to critical investigative tools to verify information in the field and rapidly follow-up new leads as they develop. This includes the ability to:

- Locate people and vehicles
- Discover relationships, such as relatives and associates
- Uncover assets
- Investigate businesses
- Generate comprehensive reports

## LexisNexis Accurint Mobile – The Power of Public Records at your Fingertips

With LexisNexis Accurint Mobile, government professionals can verify information in the field and rapidly follow-up on new leads as they develop. This provides access on mobile devices to the same powerful information previously only available through a PC or laptop. Now, government professionals can locate people, relatives and vehicles, uncover assets, investigate businesses and generate comprehensive reports from any Apple® iPhone®, Apple® iPad® or Android™ device.

Accurint Mobile processes search results in seconds, and since it has the same 99.8% data accuracy rate as Accurint for Government, it can help in locating subjects, apprehending targets and closing more cases. Accurint Mobile is provided at no additional charge to Accurint for Government users, including training and no setup or maintenance fees. Accurint Mobile is a valuable complement to any agency's investigative toolset.

### About LexisNexis® Risk Solutions

LexisNexis Risk Solutions ([www.lexisnexis.com/risk](http://www.lexisnexis.com/risk)) is a leader in providing essential information that helps customers across all industries and government predict, assess and manage risk. Combining cutting-edge technology, unique data and advanced scoring analytics, we provide products and services that address evolving client needs in the risk sector while upholding the highest standards of security and privacy. LexisNexis Risk Solutions is part of Reed Elsevier, a leading publisher and information provider that serves customers in more than 100 countries with more than 30,000 employees worldwide.

Our government solutions assist law enforcement and government agencies with deriving insight from complex data sets, improving operational efficiencies, making timely and informed decisions to enhance investigations, increasing program integrity, and discovering and recovering revenue.

The LexisNexis Accurint Mobile services are not provided by "consumer reporting agencies," as that term is defined in the Fair Credit Reporting Act (15 U.S.C. § 1681, et seq.) ("FCRA") and do not constitute "consumer reports," as that term is defined in the FCRA. Accordingly, the LexisNexis Accurint Mobile service may not be used in whole or in part as a factor in determining eligibility for credit, insurance, employment or another purpose in connection with which a consumer report may be used under the FCRA. Due to the nature of the origin of public record information, the public records and commercially available data sources used in reports may contain errors. Source data is sometimes reported or entered inaccurately, processed poorly or incorrectly, and is generally not free from defect. This product or service aggregates and reports data, as provided by the public records and commercially available data sources, and is not the source of the data, nor is it a comprehensive compilation of the data. Before relying on any data, it should be independently verified. LexisNexis and the Knowledge Burst logo are registered trademarks of Reed Elsevier Properties Inc., used under license.
